I. REVIEW OF THE POWER INDUSTRY

In the first half of 2022, the international situation was complex and severe, and the global economic growth experienced an apparent slowdown trend. Affected by the epidemic, the domestic economic situation first showed a stagnation and then an upswing. Since June 2022, the economy has stabilized and rebounded. The national electricity consumption increased year-on-year in the first half of 2022. The power generation from non-fossil fuel installed capacity maintained rapid growth. The utilization hour of all types of power generation equipment, except for hydropower and solar power generation, decreased year-on-year.

As of 30 June 2022, according to the statistics from China Electricity Council, the national electricity installed capacity in total was 2.44 billion kW, representing a year-on-year increase of 8.1%. Among which, the capacity of non-fossil fuel installed capacity totaled 1.18 billion kW, representing a year-on-year increase of 14.8%, accounting for 48.2% of the total installed capacity, representing a year-on-year increase of 2.8 percentage points. The capacity of thermal power generation was 1.30 billion kW, representing a year-on-year increase of 2.9%, of which, the capacity of gas-fired power generation was 110 million kW, representing a year-on-year increase of 3.9%; the capacity of wind power generation was 340 million kW, representing a year-on-year increase of 17.2%; the capacity of solar power generation was 340 million kW, representing a year-on-year increase of 25.8%; and the capacity of hydropower generation was 400 million kW, representing a year-on-year increase of 5.9%.

In the first half of 2022, the power generation of power plants above the national scale was 3,963.1 billion kWh, representing a year-on-year increase of 0.7%. Among which, the thermal power generation above the national scale recorded a year-on-year decrease of 3.9%. The total on-grid wind power and solar power generation recorded a year-on-year increase of 12.2% and 29.8%, respectively. The hydropower generation above the national scale recorded a year-on-year increase of 20.3%.

In the first half of 2022, the accumulated average utilization hour of national power generation equipment was 1,777 hours, representing a year-on-year decrease of 81 hours. Among which, the average utilization hour of gas-fired power generation equipment was 1,090 hours, representing a year-on-year decrease of 239 hours; the average utilization hour of on-grid wind power generation equipment was 1,154 hours, representing a year-on-year decrease of 58 hours; the average utilization hour of solar power generation equipment was 690 hours, representing a year-on-year increase of 30 hours; and the average utilization hour of hydropower generation equipment was 1,691 hours, representing a year-on-year increase of 195 hours.

MANAGEMENT DISCUSSION AND ANALYSIS

II.

2. Key project development progressed smoothly and renewable energy business reserves continuously increased

In the first half of 2022, the Group continued to adhere to the “two-wheel drive” of independent development and project mergers and acquisitions, headed on the path of “intensification, regionalization, scale, specialization and high efficiency”, leveraged the geographical advantages of regional companies and focus on key projects for breakthroughs. The installed capacity of self-developed projects that had construction indicators amounted to 1.04 million kW, the installed capacity of projects completed through mergers and acquisitions amounted to 0.10 million kW, and total pre-development capacity completed amounted to 1.14 million kW.

As of 30 June 2022, there were 21 projects under construction, with a total capacity of nearly 3.00 million kW. The ground-breaking ceremony of the million kW demonstration project with integrated energy of wind, solar, fire and hydrogen storage in Chagan Nur Power Plant was held in March 2022; the construction of the million kW base project in Qinzhou was officially started in May 2022; and the construction of the 0.15 million kW cogeneration project in Yichang started in February 2022.

In the first half of 2022, the Group obtained the Letter from Beijing Municipal Commission of Development and Reform on Supporting the Construction of “Shanxi-Power-to-Beijing” Base in the Coal Mining Subsidence Area in Datong for the Jingneng 10 million kW green integrated energy base project in Datong; based on the “14th Five-Year Plan” for the substations supporting the ultra-high voltage lines, put a particular focus on the peripheral areas, and signed framework agreements for a photovoltaic capacity of 1.95 million kW; started the preparation of the study report on the access to Beijing for the 10 million kW renewable energy Green-Power-to-Beijing base project in Chengde to carry out the preliminary work upon filing with the Beijing Municipal Commission of Development and Reform; with a focus on serving the capital, was in the process of carrying out preliminary work for the pumped storage project in Beijing and its peripheral areas, and the project in Huailai has been listed as a medium-and long-term planning reserve project of national pumped storage; succeeded in having the 2×0.4 million kW cogeneration project in Dongyuan, Guangdong being included in the “14th Five-Year Plan” for energy planning of Guangdong Province; signed a cooperation framework agreement with Beihai City for the 2×0.8 million kW gas-fired in Beihai, Guangxi; and succeeded in having the 2×0.7 million kW combined heat and power project in Dayi, Sichuan being included in the “14th Five-Year Plan” for natural gas power generation project construction in Sichuan Province to accelerate the preliminary work.

In the first half of 2022, the Group actively carried out merger and acquisition of wind power and photovoltaic projects and proposed to sign equity transfer agreements for a capacity of 0.13 million kW. The Group signed letters of intent to acquire equity interests and wind power and photovoltaic projects with a capacity of more than 0.9 million kW were underway.

MANAGEMENT DISCUSSION AND ANALYSIS

3. The Group expanded its financing channels and further reduced its capital cost

In the first half of 2022, benefited from China's prudent monetary policy and the green preferential loan policy under the dual-carbon background, the Group obtained low-interest debt funds and reduced its capital cost, with a consolidated capital cost of 3.56%, down 0.18 percentage points from 3.74% in 2021. The Group completed the registration of ultra-short-term financing debentures of RMB12.0 billion and issued three tranches of ultra-short-term financing debentures of RMB5.5 billion in aggregate. The Group completed the registration of medium-term notes of RMB3.5 billion and RMB2.0 billion in batches. At the same time, the Group made full use of innovative financing tools and obtained low-interest sub-loans from New Development Bank BRICS and low-interest loans for carbon emission reduction tools. The Group issued the first carbon-neutral asset-backed securities ("ABS") product within the state-owned system in Beijing, raising RMB1.0 billion, with a senior coupon rate of 3.07%, the lowest coupon rate of the same type and maturity in the entire market in the past two years, which effectively realized the active exploration of practicing "dual-carbon" and innovative financing.

4. The Group endeavoured to build quality projects and develop quality products for the Olympics

Beijing is a "Dual Olympic city", and the Group is a "Double Olympics enterprise". Since the provision of green power for the Beijing Summer Olympics in 2008, as a major contributor to "lighting up the lights in Beijing via the wind from Zhangbei", the Group has clearly set the goal of winning the "Gold Medal of National Premium Project Award" and established the positioning of "showcasing Jingneng's first-class international position with Olympic characteristics" during the preparation stage of construction of the 1.2 million kW wind power project for Beijing-Zhangjiakou Winter Olympics.

The Group achieved full capacity grid connection between wind power project for Beijing-Zhangjiakou Winter Olympics and the comprehensive energy utilization project for Yanqing Winter Olympics in the first half of 2022, and helped 26 venues in the three major competition areas of the Beijing Winter Olympics to achieve 100% green power supply for the first time. The Group accomplished the task of power supply for the Winter Olympic Games, delivered 170 million kWh of green power and obtained the first green power consumption certificate for the Winter Olympic Games in China. Through the Olympic Games, Beijing displayed China's commitments to the world, and Jingneng Clean Energy displayed its commitments as one of the capital's state-owned enterprises to the world. The Group will keep on working hard, aiming to become a world-class clean energy service provider in Beijing.

MANAGEMENT DISCUSSION AND ANALYSIS

5. The Group accelerated digital transformation to build a smart operation and maintenance system

In the first half of 2022, the Group continued to carry out research and demonstration projects on the construction of smart power plants producing clean energy, facilitated digital and smart transformation, built a digital and smart production and operation and maintenance system and established the three-in-one structure of “Smart Supervision Center – Region-wide Branch Centralized Control Center and 7 Gas-fired Plants – Station” covering more than 100 wind power plants, photovoltaic power plants, hydropower plants and gas-fired power plants to gradually establish a new production management model of “unmanned duty, few people on duty, centralized monitoring, smart operation and maintenance”. Currently, 10 of 12 region-wide centralized control center have been built and put into operation, and the other two control centers were also in progress. It is expected that the data from each centralized control center will be connected to the smart supervision center by the end of the year. After the completion of the project, it will effectively carry out equipment energy efficiency analysis, fault warning, health management and control, and performance improvement, which is expected to increase the annual power generation by about 1 to 2%.

III. OPERATING RESULTS AND ANALYSIS

1. Overview

In the first half of 2022, the Company’s profitability recorded continuous improvement. Profit for the period amounted to RMB1,865.4 million, representing an increase of 15.15% as compared with RMB1,620.0 million for the first half of 2021. Profit for the period attributable to the equity holders amounted to RMB1,776.7 million, representing an increase of 14.63% as compared with RMB1,550.0 million for the first half of 2021.

2. Operating Income

In the first half of 2022, the total revenue increased by 6.16% from RMB9,411.5 million for the first half of 2021 to RMB9,991.6 million.

MANAGEMENT DISCUSSION AND ANALYSIS

Gas-fired Power and Heat Energy Generation Segment

The revenue from the gas-fired power and heat energy generation segment decreased by 2.58% from RMB6,394.7 million for the first half of 2021 to RMB6,229.6 million for the first half of 2022, of which, revenue from sales of electricity decreased by 5.41% from RMB5,297.0 million for the first half of 2021 to RMB5,010.6 million for the first half of 2022, due to the decrease in sales volume of electricity of this segment. Revenue from sales of heat energy increased by 11.05% from RMB1,097.7 million for the first half of 2021 to RMB1,219.0 million for the first half of 2022, due to the extension of heating supply period for the first half of 2022.

Wind Power Segment

The revenue from wind power segment increased by 36.85% from RMB1,601.3 million for the first half of 2021 to RMB2,191.3 million for the first half of 2022, due to an increase in sales volume of electricity as a result of increased installed capacity in this segment.

Photovoltaic Power Segment

The revenue from photovoltaic power segment increased by 11.57% from RMB1,255.3 million for the first half of 2021 to RMB1,400.5 million for the first half of 2022, due to an increase in sales volume of electricity as a result of increased installed capacity in this segment.

Hydropower Segment

The revenue from hydropower segment increased by 13.44% from RMB146.6 million for the first half of 2021 to RMB166.3 million for the first half of 2022, due to the increase in sales volume of electricity as a result of an increase in water inflow in this segment.

Other Segment

The revenue from other segment decreased by 71.32% from RMB13.6 million for the first half of 2021 to RMB3.9 million for the first half of 2022, due to higher revenue from providing external maintenance service in the first half of 2021.

3. Other Income

Other income increased by 8.71% from RMB453.5 million for the first half of 2021 to RMB493.0 million for the first half of 2022, due to the increase in income from carbon credits.

4. Operating Expenses

Operating expenses increased by 4.60% from RMB7,308.5 million for the first half of 2021 to RMB7,644.7 million for the first half of 2022, due to the cost expensed following the commencement of production of projects of wind power segment and photovoltaic power segment.

Gas Consumption

Gas consumption decreased by 2.30% from RMB4,653.5 million for the first half of 2021 to RMB4,546.3 million for the first half of 2022, due to a decrease in power generation volume of the gas-fired power and heat energy generation segment, resulting in a decrease in gas consumption.

Depreciation and Amortization Expense

Depreciation and amortization expense increased by 18.78% from RMB1,511.3 million for the first half of 2021 to RMB1,795.1 million for the first half of 2022, due to the increase in the installed capacity in the wind power and the photovoltaic power segment.

Personnel Cost

Personnel cost increased by 16.55% from RMB417.6 million for the first half of 2021 to RMB486.7 million for the first half of 2022, due to the increase in the number of employees as a result of the business development of the Group, and additional personnel costs expensed following the commencement of production of new projects.

MANAGEMENT DISCUSSION AND ANALYSIS

Repairs and Maintenance

Repairs and maintenance decreased by 0.73% from RMB234.2 million for the first half of 2021 to RMB232.5 million for the first half of 2022.

Other Expenses

Other expenses principally comprise (1) external purchase of power, water and materials etc.; (2) property management, greening and fire protection fees; (3) rental expenses; (4) underwriting fees, bank commissions; (5) intermediary service fees; (6) property insurance premium; (7) other miscellaneous operating expenses.

Other expenses increased by 3.99% from RMB485.7 million for the first half of 2021 to RMB505.1 million for the first half of 2022, due to an increase in operating and management expenses as a result of the commencement of production of new projects.

Other Losses

Other losses amounted to RMB79.0 million for the first half of 2022, which mainly represented issue discounts in connection with account receivables upon ABS issue.

5. Operating Profit

As a result of the above, operating profit increased by 11.09% from RMB2,556.5 million for the first half of 2021 to RMB2,840.0 million for the first half of 2022.

MANAGEMENT DISCUSSION AND ANALYSIS

Wind Power Segment

Operating profit of wind power segment increased by 36.27% from RMB967.0 million for the first half of 2021 to RMB1,317.7 million for the first half of 2022, due to an increase in installed capacity in this segment.

Photovoltaic Power Segment

Operating profit of photovoltaic power segment increased by 15.85% from RMB649.9 million for the first half of 2021 to RMB752.9 million for the first half of 2022, due to an increase in installed capacity in this segment.

Hydropower Segment

Operating profit of hydropower segment increased by 27.07% from RMB39.9 million for the first half of 2021 to RMB50.7 million for the first half of 2022, due to the increase in sales volume of electricity as a result of an increase in water inflow in this segment during the first half of 2022.

Other Segment

Operating loss of other segment increased from a loss of RMB130.0 million for the first half of 2021 to a loss of RMB284.5 million for the first half of 2022, due to the increase in the loss from fair value change of H shares of CGN Power Co., Ltd. held by the Group and issue discounts in connection with account receivables upon ABS issue.

6. Finance Costs

Finance costs increased by 12.34% from RMB637.9 million for the first half of 2021 to RMB716.6 million for the first half of 2022, due to interest expenses expensed as a result of the increase in the installed capacity in wind power segment and photovoltaic power segment after they are put into production.

MANAGEMENT DISCUSSION AND ANALYSIS

7. Share of Results of Associates and a Joint Venture

Share of results of associates and a joint venture increased from RMB13.9 million for the first half of 2021 to RMB96.3 million for the first half of 2022, mainly due to an increase in the profit for the first half of 2022 of a subsidiary of an associate, Beijing Jingneng International Power Co., Ltd. (“Jingneng International”).

8. Profit before Taxation

As a result of the foregoing, profit before taxation increased by 14.80% from RMB1,949.2 million for the first half of 2021 to RMB2,237.7 million for the first half of 2022.

9. Income Tax Expense

Income tax expense increased by 13.06% from RMB329.3 million for the first half of 2021 to RMB372.3 million for the first half of 2022. Effective tax rate decreased from 16.89% for the first half of 2021 to 16.64% for the first half of 2022.

10. Profit for the Period

As a result of the foregoing, profit for the period increased by 15.15% from RMB1,620.0 million for the first half of 2021 to RMB1,865.4 million for the first half of 2022.

11. Profit for the Period Attributable to Equity Holders of the Company

Profit for the period attributable to equity holders of the Company increased by 14.63% from RMB1,550.0 million for the first half of 2021 to RMB1,776.7 million for the first half of 2022.

IV. FINANCIAL POSITION

1. Overview

As of 30 June 2022, total assets of the Group amounted to RMB83,608.3 million, total liabilities amounted to RMB52,567.9 million and shareholders' equity amounted to RMB31,040.4 million, among which equity attributable to the equity holders amounted to RMB27,585.2 million.

2. Particulars of Assets and Liabilities

Total assets increased by 1.69% from RMB82,214.9 million as at 31 December 2021 to RMB83,608.3 million as at 30 June 2022, due to an increase in investment in projects. Total liabilities increased by 0.39% from RMB52,364.6 million as at 31 December 2021 to RMB52,567.9 million as at 30 June 2022, due to increased debt as a result of capital demand for construction of projects. Total equity increased by 3.99% from RMB29,850.3 million as at 31 December 2021 to RMB31,040.4 million as at 30 June 2022. Equity attributable to equity holders of the Company increased by 4.36% from RMB26,432.6 million as at 31 December 2021 to RMB27,585.2 million as at 30 June 2022, due to the accretion from business results in the first half of 2022.

3. Liquidity

As of 30 June 2022, current assets amounted to RMB18,888.1 million, including monetary capital of RMB5,315.5 million, bills and account receivables of RMB11,977.5 million (mainly comprising receivables from sales of electricity and sales of heat), and prepayment and other current assets of RMB1,595.1 million (mainly comprising deductible value-added tax and other account receivables). Current liabilities amounted to RMB28,215.4 million, including short-term borrowings of RMB9,510.4 million, short-term financing debentures of RMB7,572.4 million, medium-term notes of RMB3,561.3 million, corporate bonds of RMB1,411.9 million, trade and other payables of RMB5,410.2 million (mainly comprising payables for gas, payables for construction projects and purchase of equipment). Other current liabilities amounted to RMB749.2 million, mainly comprising income tax payable and amounts due to related parties.

Net current liabilities decreased by 4.46% from RMB9,763.2 million as at 31 December 2021 to RMB9,327.3 million as at 30 June 2022.

4. Net Gearing Ratio

Net gearing ratio, calculated by dividing net debts (total borrowings minus cash and cash equivalents) by the sum of net debts and total equity, decreased by 1.08 percentage points from 56.87% as at 31 December 2021 to 55.79% as at 30 June 2022.

The Group's long-term and short-term borrowings decreased by 0.07% from RMB44,517.1 million as at 31 December 2021 to RMB44,487.0 million as at 30 June 2022, including short-term borrowings of RMB9,510.4 million, short-term financing debentures of RMB7,572.4 million, medium-term notes of RMB4,583.9 million, long-term borrowings of RMB20,794.7 million and corporate bonds of RMB2,025.6 million.

Bank deposits and cash held by the Group increased by 3.08% from RMB5,156.9 million as at 31 December 2021 to RMB5,315.5 million as at 30 June 2022.

MANAGEMENT DISCUSSION AND ANALYSIS

V. HUMAN RESOURCES SEGMENT

The Company upholds the management philosophy of “people-oriented and pursuit of excellence”, strives to create a harmonious working environment, and strengthens efforts in building of talents team. While focusing on the development of the Company, it attaches importance to staff training and employees’ benefits. The overall human resources condition of the Company in the first half of 2022 is summarized as follows:

1. SUMMARY OF HUMAN RESOURCES

The Company had a total of 3,027 employees as at 30 June 2022. The age of staff tended to be young, with the proportion of employees under the age of 35 accounting for nearly 47%; employees are generally highly educated, with the proportion of holders of Bachelor’s degree and above accounting for nearly 67% of the total staff. Please refer to the following tables for details of the age and degree structure of employees:

(1) Age Structure

Age distribution	Number of employees	Percentage	Cumulative percentage
Under 35	1,420	46.91%	46.91%
36 to 45	736	24.31%	71.22%
46 to 55	744	24.58%	95.80%
Over 56	127	4.20%	100.00%
Total	3,027	100.00%	–

(2) Degree Structure

Educational background	Number of employees	Percentage	Cumulative percentage
Doctorate degree	3	0.10%	0.10%
Master’s degree	161	5.32%	5.42%
Bachelor’s degree	1,842	60.85%	66.27%
College or below	1,021	33.73%	100.00%
Total	3,027	100.00%	–

2. EMPLOYEES’ INCENTIVES

With an aim to cope with its development, the Company, on the basis of position-oriented targets accountability system, has further established a performance appraisal system for all employees and a multi-level incentive mechanism. Through clearly defining position-oriented performance targets, the Company is able to assess and appraise employees’ performance in an objective manner. By materializing reward and penalty in the performance-based portion of the employees’ remuneration based on appraisal results, the Company is able to fully boost the potential and the morale of employees, thus achieving the coexistence of incentives and restraints.

3. EMPLOYEES' REMUNERATION

The employees' remuneration comprises basic salary and performance-based salary. The total salary is determined by reference to the performance appraisal of all employees of the Group. Individual performance is associated with personal annual appraisal results.

4. EMPLOYEES' TRAINING

Talents are the source for the Company's development. The Company utilized training agenda as an important tool of upgrading the level of corporate management and of enhancing the overall quality of employees. In terms of the design of training courses, the Company emphasized the probe into training needs, in a view to actively motivating all employees' initiatives, and arranged various vocational training for employees that are geared to the characteristics of requirements of each profession and position. The Company formed a set of complete system to strictly check and examine the training results in respect of training management. The Company offered a variety of training forms, and also encouraged employees to actively participate in external training to provide more opportunities for employees to communicate with and study from the outside and broaden their horizons, thus cultivating more talents for the Company.

Based on corporate characteristics and actual situations, the Company rolled out the management training program in 2022, which was designed to enhance professional efficiency and cultural literacy, showing commitment to raise the comprehensive capabilities of young and middle-aged key employees. The training program comprises post-specific professional training, new employee training and frontline technical skill training that focused on actual needs of the production business and professional skills characteristics, in order to improve the professional skills of technical skilled employees. The courses are rich in content and diverse in form.

5. EMPLOYEES' BENEFITS

The Company has made contributions to the social insurance and housing fund for its employees in strict compliance with the Labor Law, Labor Contract Law and Social Insurance Law. Meanwhile, the Group has also prepared related systems such as the Management Standards for Social Insurance and Housing Fund, Management Standards for Supplementary Healthcare, Management Standards for Occupational Health, Management Standards for Labor Welfare and Management Standards for Labor Protective Equipment to increase the benefits of the Company and enhance employees' sense of belonging and happiness.

MANAGEMENT DISCUSSION AND ANALYSIS

VI. OTHER SIGNIFICANT EVENTS

1. Financing

On 14 January 2022, the Group completed the issuance of the first tranche RMB2 billion 270-day ultra-short-term financing debentures of 2022 at an interest rate of 2.48%;

On 14 March 2022, the Group completed the issuance of the second tranche RMB2 billion 269-day ultra-short-term financing debentures of 2022 at an interest rate of 2.37%;

On 20 May 2022, the Group completed the issuance of the third tranche RMB1.5 billion 269-day ultra-short-term financing debentures of 2022 at an interest rate of 2.00%.

2. Capital Expenditure

In the first half of 2022, the Group's capital expenditure amounted to RMB3,044.0 million, among which RMB1,831.1 million incurred for construction projects in the wind power segment, RMB1,128.1 million incurred for construction projects in the photovoltaic power segment, RMB38.1 million incurred for construction projects in the gas-fired power and heat energy generation segment and RMB46.7 million incurred for energy storage projects.

3. Acquisition and Establishment of Subsidiaries

According to the development plan of the Group, in the first half of 2022, the Group acquired Dongyuan County Shunfeng New Energy Co., Ltd. (东 源 县 顺 丰 新 能 源 有 限 公 司), which is engaged in the construction of photovoltaic power generation projects.

In the first half of 2022, the Group established Qinzhou Jingneng Clean Energy Co., Ltd. (钦 州 景 能 清 洁 能 源 有 限 公 司), which is engaged in the construction of photovoltaic power generation projects.

The Group entered into an equity transfer agreement with Beijing International Electric Engineering Co., Ltd. (北 京 国 际 电 气 工 程 有 限 公 司) ("BIEE"), pursuant to which, BIEE has agreed to sell and the Company has agreed to acquire 55% equity interest in Beijing Jingneng International Energy Technology Co., Ltd. (北 京 景 能 国 际 能 源 技 术 有 限 公 司) ("BJIET") at a consideration of RMB48.5 million. For further details, please refer to the Company's announcement dated 29 March 2022 and note 2(a) of the condensed consolidated financial statements.

4. Contingent Liabilities

As of 30 June 2022, the Group had no contingent liabilities.

5. Mortgage of Assets

As of 30 June 2022, the Group's bank borrowings were secured by trade receivables of RMB2,021.1 million; fixed assets of RMB3,628.5 million; the entire equity in New Gullen Range Wind Farm Pty Ltd. and Gullen Solar Pty Ltd., which was pledged to National Australia Bank in connection with the loan facilities granted by National Australia Bank and the entire equity in Ningxia Boyang New Energy Co., Ltd. and Ningxia Kaiyang New Energy Co., Ltd., which was pledged to National Development Bank ("NDB") in China in connection with the loans granted by NDB.

6. Significant Events after the Reporting Period

The Company entered into the Absorption and Merger Agreement with Beijing Energy Holding Co., Ltd. (北京能源控股, 有限公司) ("BEH"), Jingneng International and Shenzhen Jingneng Financial Leasing Co., Ltd. (深圳国际融资租赁, 有限公司) ("Shenzhen Leasing") and the Equity Transfer Agreement with BEH, pursuant to which BEH's 84.68% equity interest in Shenzhen Leasing will be swapped for the Company's 20% equity interest in Jingneng International and the difference in consideration for the equity interests will be made up by the Company in cash to BEH. Upon the completion of the transactions, Jingneng International will be absorbed and merged by BEH, and deregistered in accordance with the law; and the Company will hold 84.68% equity interest in Shenzhen Leasing. Jingneng International is principally engaged in the construction and investment management of electricity and energy projects. Shenzhen Leasing primarily provides financial leasing services and commercial factoring business services in relation to financial leasing to the public and members of BEH. For further details, please refer to the Company's announcement dated 10 May 2022.

Save for the aforesaid matters, there is no other significant event of the Group subsequent to the six months ended 30 June 2022 (the "Reporting Period").

MANAGEMENT DISCUSSION AND ANALYSIS

7. Share Option Scheme

For the six months ended 30 June 2022, the Company did not implement any share option scheme.

8. Foreign Exchange and Exchange Rate Risk

The businesses of the Group are mainly located in Mainland China, where most of its income and expenses are denominated in RMB. The Group has a small portion of overseas investments and loans in foreign currencies (including deposits denominated in Australian Dollar, HK dollars, US dollars, Euro, as well as borrowings in HK dollars and Australian Dollar). Changes in RMB exchange rates may cause exchange losses or gains to the Group's foreign currency-denominated business.

The Group will continue to monitor exchange rates so as to cope with changes in the foreign exchange market and enhance the risk management on exchange rates by various management measures.

VII. BUSINESS OUTLOOK FOR THE SECOND HALF OF 2022

In the first half of 2022, affected by the complex and severe international situations and the impact of the domestic epidemic, the downward pressure on national economy further increased. In the second half of 2022, with the full resumption of work, production and markets, the national economy is expected to enter the recovery phase and register positive growth rate. In the face of the complex and ever-changing economic situation where challenges and opportunities both exist, the Group will continue to adhere to the general principle of seeking progress while maintaining stability, follow the

MANAGEMENT DISCUSSION AND ANALYSIS

1. Actively promote the development and expansion of new projects

In the second half of 2022, the Group will continue to adhere to the “two-wheel drive” of independent development and merger and acquisitions, focus its efforts on regions with traditional advantages, create new cooperation models in regions newly expanded into, increase cooperation efforts, identify target land, seize resources and increase efforts in projects of high-quality resource mergers and acquisitions. The Group will give full to its own advantages as the capital’s state-owned enterprise, focus on the dual carbon goals and demand of Green-Power-to-Beijing, press on with base projects in Datong and Chengde; keep up with the development of the industry and technological iterations, strive to make breakthroughs in new business such as energy storage and hydrogen energy; and fight for a larger market share of the increment of renewable energy in Beijing by aligning with the planning arrangements for renewable energy installations in Beijing.

2. Focus on smart operation and maintenance driven by technology

In the second half of 2022, the Group will continue to accelerate the process of digital transformation of its business. The Group will promote the construction of the smart supervision centers and region-wide centralized control centers with high quality to establish a three-in-one smart management structure and change the traditional operation model and realize the unified management of more than 100 wind power plants, photovoltaic power plants, hydropower plants and gas-fired power plants and the centralized deployment and decentralized use of business platforms. The Group will maximize the value of data, reduce labor costs, achieve the goals of “identifying all potential risks, perceiving the operation status, making all operation data under control, and managing its business operation online” step by step, and create an industry benchmark of “unmanned duty, few people on duty, centralized monitoring, smart operation and maintenance. The Group will optimize its security management and mutual back-up platform, realize the sharing of back-up information in the system, reduce enterprise inventory rate, realize digital inventory management, and improve management capability.

3. Uphold the bottom line and red line of safe production

In the second half of 2022, the Group will continue to promote the “five refined” management of safe production, put the “five refined” management concept into practice in the daily management of staff access, team building, safety risk identification and potential hazard investigation and management, identify weaknesses in the safety field, carry out thematic safety production education and training, promote the concept of safety culture, and create a characteristic safety culture of “understanding, vigilance, prudence and self-reflection”. The Group will carry out in-depth investigation and management of potential risks and hazards, focus on key areas and highlight the “two tickets”, “anti-violation”, fire safety and other special rectification. The Group will regularly carry out safety evaluation, production management evaluation and safety and environmental protection inspections, organize special inspections, such as unit maintenance, energy supply assurance, to achieve full coverage of the safety inspection without dead ends. The Group will further strengthen the construction of emergency management system, optimize and improve emergency plans, organize emergency training and emergency drills on a regular basis, and effectively improve emergency response capabilities.

CORPORATE GOVERNANCE AND OTHER INFORMATION

COMPLIANCE WITH CORPORATE GOVERNANCE CODE

As a company listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”), the Company always strives to maintain a high level of corporate governance and complied with all code provisions as set out in the Corporate Governance Code contained in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”) for the six months ended 30 June 2022.

COMPLIANCE WITH MODEL CODE

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) set out in Appendix 10 of the Listing Rules as the code of conduct regarding securities transactions of the Company by the Directors and supervisors of the Company. Upon making specific enquiries to all of the Directors and supervisors of the Company, all Directors and supervisors of the Company confirmed that during the six months ended 30 June 2022, each of the Directors and supervisors of the Company had fully complied with the required standards set out in the Model Code.

PLEDGING OF SHARES BY THE CONTROLLING SHAREHOLDER

The controlling shareholder of the Company did not pledge any of its shares in the Company to secure the Company’s debts or to secure guarantees or other support of the Company’s obligations for the six months ended 30 June 2022.

LOAN AGREEMENTS OR FINANCIAL ASSISTANCE OF THE COMPANY

The Company did not provide any financial assistance nor guarantee to its affiliated companies for the six months ended 30 June 2022, which gives rise to a disclosure under Rule 13.16 of the Listing Rules. The Company did not enter into any loan agreement with covenants relating to specific performance of its controlling shareholder nor breach the terms of any loan agreements for the six months ended 30 June 2022.

AUDIT COMMITTEE

The Audit Committee of the Company (the “Audit Committee”) has formulated terms of reference in written

Note: According to the relevant requirements in the memorandums and articles of association of the Company and its subsidiaries, a portion of its profits after taxation computed in accordance with the accounting principles and financial regulations in the PRC ("PRC GAAP") will be transferred to statutory surplus reserve. The transfer to this reserve must be made before the distribution of a dividend to ordinary shareholders. Such statutory surplus reserve can be used to offset the previous years' losses, if any, or increase capital. The statutory surplus reserve is non-distributable other than upon liquidation.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 June 2022 (Unaudited)

1. GENERAL AND BASIS OF PRESENTATION

In preparing the condensed consolidated financial statements, the directors of the Company (the “Directors”) have given careful consideration of the Group’s net current liabilities of RMB9,327,295,000 as at 30 June 2022. The Group met its day-to-day working capital requirements through cash flows from operating activities and available banking facilities. Based on assessment, the Directors are of the view that the Group will be able to meet in full its financial obligations as they fall due in the foreseeable future. Accordingly, the condensed consolidated financial statements have been prepared on a going concern basis.

The condensed consolidated financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting issued by the International Accounting Standards Committee as well as with the applicable disclosure requirements of Appendix 16 to the Rules (the “Listing Rules”) Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). Such condensed consolidated financial statements have not been audited.

The condensed consolidated financial statements are presented in Renminbi (“RMB”), which is the same as the functional currency of the Company.

2. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values as appropriate.

Other than additional accounting policies resulting from application of amendments to International Financial Reporting Standards (“IFRSs”) and application of certain accounting policies which became relevant to the Group, the accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 June 2022 are the same as those followed in the preparation of the Group’s consolidated financial statements for the year ended 31 December 2021.

Application of amendments to IFRSs

In the current interim period, the Group has applied, the following amendments to IFRSs issued by the International Accounting Standards Board (the “IASB”) for the first time, which are mandatorily effective for the annual period beginning on or after 1 January 2022 for the preparation of the Group’s condensed consolidated financial statements:

Amendments to IFRS 3	Reference to the Conceptual Framework
Amendment to IFRS 16	Covid-19-Related Rent Concessions beyond 30 June 2021
Amendments to IAS 16	Property, Plant and Equipment – Proceeds before Intended Use
Amendments to IAS 37	Onerous Contracts – Cost of Fulfilling a Contract
Amendments to IFRSs	Annual Improvements to IFRSs 2018-2020

The application of the amendments to IFRSs in the current interim period has had no material impact on the Group’s financial performance and positions for the current and prior periods and/or on the disclosures set out in these condensed consolidated financial statements.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 June 2022 (Unaudited)

2. PRINCIPAL ACCOUNTING POLICIES (Continued)

BASIS OF PREPARATION

Restatements

(a) Merger accounting

On 29 March 2022, the Company entered into an equity transfer agreement with BIEE, pursuant to which, BIEE has agreed to sell and the Company has agreed to acquire 55% equity interest in BJJET at a total consideration of RMB48,458,630 (the “Acquisition”). On 31 March 2022, the Group has completed the Acquisition.

The Group and BJJET are all under the ultimate control of BEH before and after the Acquisition, and that control is not transitory. The Group and BJJET are regarded as continuing entities as at the date of business combination and hence the Acquisition has been accounted for as combinations of entities under common control by applying the principles of merger accounting in accordance with Accounting Guideline 5 “Merger Accounting for Common Control Combinations” (“AG 5”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”).

Accordingly, the unaudited condensed consolidated statement of profit or loss and other comprehensive income, unaudited condensed consolidated statement of changes in equity and unaudited condensed consolidated statement of cash flows of the Group for the six months ended 30 June 2021 were presented as if the current group structure upon the completion of the restructuring of the group had been in existence throughout the six months ended 30 June 2021. The condensed consolidated statements of financial position of the Group as at 1 January 2021 and 31 December 2021 have been restated to include the assets and liabilities of the BJJET as if current group structure had been in existence as at the respective dates.

- (b) Impacts and accounting policies on application of Amendments to International Accounting Standard (“IAS”) 16 Property, Plant and Equipment – Proceeds before Intended Use
- Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, including costs of testing the related assets functioning properly and, for qualifying assets, borrowing costs capitalised in accordance with the Group’s accounting policy. Sale proceeds of items that are produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management (such as samples produced when testing whether the asset is functioning properly), and the related costs of producing those items are recognised in the profit or loss. The Group has applied Amendments to IAS 16 retrospectively to property, plant and equipment made available for use on or after the beginning of the earliest period presented. Comparative figures have been restated.

	Gas-fired power and heat energy generation	Wind power	Photovoltaic

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 June 2022 (Unaudited)

3A. REVENUE FROM CONTRACTS WITH CUSTOMERS(Continued)

(ii) Performance obligations for contracts with customers

Majority of the sales of electricity to provincial power grid companies are pursuant to the power purchase agreements entered into between the Group and the respective provincial power grid companies. The Group's sales of electricity are made to these power grid companies at the tariff rates agreed with the respective provincial power grid companies as approved by the relevant government authorities.

Sales of heat energy to customers are pursuant to the heat energy purchase agreements entered into between the Group and the customers. The Group's sales of heat energy are made to the customers at the tariff rates approved by the Beijing Municipal Commission of Development and Reform.

For sales of electricity and heat energy, revenue is recognised when control of electricity and heat has been transferred, being when electricity and heat is supplied to the power grid companies and the customers. The normal credit term is 60 days upon electricity and heat is supplied. There is no significant financing component among the payment terms of sales of electricity and heat.

3B. SEGMENT INFORMATION

(a) Segment revenue and results

The Group manages its businesses by divisions, such as performing the monthly revenue analysis by segments which are organized by types of business. Information is reported internally to the Group's chief operating decision maker ("CODM"), including general manager, deputy general managers and chief accountant, for the purposes of resource allocation and performance assessment. The Group has presented the following operating and reportable segments.

- Gas-fired power and heat energy generation: constructing, managing and operating natural gas-fired power plants and generating electric power and heat energy for sale to external customers.
- Wind power: constructing, managing and operating wind power plants and generating electric power for sale to external customers.
- Photovoltaic power: constructing, managing and operating photovoltaic power plants and sales of electricity generated to external customers.
- Hydropower: managing and operating hydropower plants and sales of electricity generated to external customers.

Operating segments other than "Gas-fired power and heat energy generation", "Wind power", "Photovoltaic power" and "Hydropower" did not meet the quantitative thresholds for reportable segments in both current period and prior period. Accordingly, these are grouped and presented as "Others" in the segment information.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

7. INCOME TAX EXPENSE

	For the six-month period ended 30 June	
	2022	2021
	RMB'000	RMB'000
	(Unaudited)	(Unaudited and restated)
Current tax:		
PRC enterprise income tax	352,360	271,955
Deferred tax:		
Current period	19,943	57,299
Income tax expense	372,303	329,254

PRC enterprise income tax has been generally provided at the applicable enterprise income tax rate of 25% on the estimated assessable profits of the group companies established in the PRC for the six months ended 30 June 2022.

Under the PRC Enterprise Income Tax law, the preferential tax treatment for encouraged enterprises located in the Western China and certain industry-oriented tax incentives remain available up to 31 December 2030 when the original preferential tax period expired. Under the enterprise income tax law, the enterprises in encouraged industries in Western China are eligible for a preferential enterprise income tax rate for the period from 1 January 2021 to 31 December 2030. A PRC enterprise which enjoys this tax treatment is entitled to a preferential tax rate of 15%, and is exempt from the enterprise income tax for the first to third year and is entitled to a preferential enterprise income tax rate of 50% on its taxable income for the fourth to sixth year. Certain of the Group's wind farm projects, photovoltaic projects and hydropower power projects were entitled to this tax concession.

Under the two-tiered profits tax rates regime in Hong Kong, the first Hong Kong dollars 2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits in excess of HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

No provision for Hong Kong Profit Tax has been made as the Group has no assessable profit derived in Hong Kong.

Australian income tax is calculated at 30% of the estimated assessable profit.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 June 2022 (Unaudited)

8. PROFIT FOR THE PERIOD

	For the six-month period ended 30 June	
	2022 RMB'000 (Unaudited)	2021 RMB'000 (Unaudited and restated)
Profit for the period has been arrived at after charging:		
Auditors' remuneration	1,296	1,862
Lease payments in respect of land and building	29,202	26,391
<hr/>		
Depreciation and amortization:		
Depreciation of property, plant and equipment	1,602,201	1,342,271
Depreciation of right-of-use assets	35,998	35,535
Amortization of intangible assets	156,878	133,517
<hr/>		
Total depreciation and amortization	1,795,077	1,511,323

9. DIVIDENDS

- (a) A final dividend of RMB7.037 cents per ordinary share (tax inclusive) in respect of the year ended 31 December 2021 amounting to RMB580,166,000 was approved in the Company's annual general meeting held on 29 June 2022.
- (b) The Board does not recommend the payment of any interim dividend for the six months ended 30 June 2022 (six months ended 30 June 2021: nil).

10. EARNINGS PER SHARE

The calculation of basic earnings per share is based on the profit attributable to ordinary shareholders of the Company for the six months ended 30 June 2022 of RMB1,776,682,000 (six months ended 30 June 2021: RMB1,549,989,000) and the number of shares in issue for the six months ended 30 June 2022 of 8,244,508,000 (six months ended 30 June 2021: 8,244,508,000).

Diluted earnings per share are presented as the same as the basic earnings per share as there were no potential diluted shares outstanding during the presented periods.

11. PROPERTY, PLANT AND EQUIPMENT

During the six months ended 30 June 2022, the Group acquired items of property, plant and equipment of RMB2,421,439,000 (six months ended 30 June 2021: RMB2,609,943,000). Items of property, plant and equipment with a net book value of approximately RMB3,678,000 were disposed during the six months ended 30 June 2022 (six months ended 30 June 2021: RMB7,119,000), resulting in a loss on disposal of approximately RMB2,570,000 (six months ended 30 June 2021: loss on disposal of RMB8,689,000). Additionally, due to the impact of exchange rate, items of property, plant and equipment were decreased by RMB2,046,000 during the six months ended 30 June 2022 (six months ended 30 June 2021: RMB46,652,000).

– clean energy power price premium	10,165,442	9,421,023
Bills receivable	73,791	

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 June 2022 (Unaudited)

15. CASH AND CASH EQUIVALENTS

The Group's cash and cash equivalents comprise cash on hand and deposits with banks and a related non-bank financial institution with an original maturity of 3 months or less. Deposits with banks and a related non-bank financial institution carry prevailing market interest rate.

The Group had deposits of approximately RMB4,548,849,000 (as at 31 December 2021: RMB3,926,228,000) placed with /• « ì þ " ®! (BEH Finance Co., Ltd., English name for identification purpose) ("BEH Finance"), a non-bank financial institution approved by China Banking Regulatory Commission as at 30 June 2022. Such deposits were short-term, highly liquid investments that are readily convertible into known amounts of cash and are subject to an insignificant risk of changes in value, accordingly, the balances as at 30 June 2022 and 31 December 2021 have been regarded as cash and cash equivalents.

16. TRADE AND OTHER PAYABLES

As at 30

As at 31

19. MEDIUM-TERM NOTES/CORPORATE BOND

On 1 December 2017, the Company issued 5-year medium-term note with total value of RMB2,000,000,000. The coupon rate is 5.50% per annum. Total proceeds received, net of issuance costs, amounted to RMB1,994,340,000. The medium-term note will be fully repaid on 1 December 2022.

On 3 April 2018, the Company issued 5-year medium-term note with total value of RMB1,500,000,000. The coupon rate is 5.19% per annum. Total proceeds received, net of issuance costs, amounted to RMB1,495,754,000. The medium-term note will be fully repaid on 3 April 2023.

On 9 April 2020, the Company issued 5-year medium-term note with total value of RMB1,000,000,000. The coupon rate is 3.25% per annum. Total proceeds received, net of issuance costs, amounted to RMB998,585,000. The medium-term note will be fully repaid on 13 April 2025.

On 13 November 2019, the Company issued 3-year corporate bond with total value of RMB1,000,000,000. The coupon rate is 3.64% per annum. Total proceeds received, net of issuance costs, amounted to RMB999,642,000. The corporate bond will be fully repaid on 13 November 2022.

On 16 April 2020, the Company issued corporate bond with total value of RMB1,000,000,000. Of which, RMB600,000,000 was 5-year corporate bond, with coupon rate of 3.22% per annum; RMB400,000,000 was 3-year corporate bond, with coupon rate of 2.65% per annum. Total proceeds received, net of issuance costs, amounted to RMB999,642,000. The corporate bond will be fully repaid on 16 April 2023 and 16 April 2025 respectively.

20. PERPETUAL NOTES

(a) Issued on 15 May 2020

On 15 May 2020, the Company issued perpetual medium-term notes with a total principal amount of RMB1,500,000,000 (“Perpetual Notes”). The proceeds from the issuance of the Perpetual Notes after netting off the issuance cost were RMB1,493,250,000.

The coupon rate for the first three years up to 19 May 2023 is 3.44% per annum, which is paid annually in arrears on 19 May in each year (“Coupon Payment Date”). The Company may defer any interest at its own discretion unless compulsory coupon payment events (including distributions to ordinary shareholders of the Company (except for handing in the state-owned capital proceeds required by relevant regulations of state-owned assets management) or reduction of the registered capital of the Company) has occurred. The deferred interest is interest bearing at the current coupon rate during the interest deferral period.

The Perpetual Notes have no fixed term and are callable at the Company’s option, on 19 May 2023 or on any Coupon Payment Date afterwards, at their principal amounts together with any accrued, unpaid or deferred coupon interest payments.

24. EVENTS AFTER THE REPORTING PERIOD

The Company entered into the Absorption and Merger Agreement with BEH, Jingneng International and Shenzhen Leasing and the Equity Transfer Agreement with BEH, pursuant to which BEH's 84.68% equity interest in Shenzhen Leasing will be swapped for the Company's 20% equity interest in Jingneng International and the difference in consideration for the equity interests will be made up by the Company in cash to BEH. Upon the completion of the transactions, Jingneng International will be absorbed and merged by BEH, and deregistered in accordance with the law; and the Company will hold 84.68% equity interest in Shenzhen Leasing. Jingneng International is principally engaged in the construction and investment management of electricity and energy projects. Shenzhen Leasing primarily provides financial leasing services and commercial factoring business services in relation to financial leasing to the public and members of BEH. For further details, please refer to the Company's announcement dated 10 May 2022.

25. The financial statements were approved by the board of the company on 25 August 2022.
